SPACE CLEARINGS

Everything has an energetic field. It has been proven through quantum physics. I'm sure you've had a moment where you felt the heavy energy of a terrible argument or something sad that happened in a room you entered. We all have.

Energetic space clearings dissolve unwanted and stagnant environmental "feeling" that accumulates, be it at home or at work. If you - or your employees, colleagues, or team - are stuck, sluggish, anxious, discouraged or in a place of low morale or transition, space clearings have the power to transform, promote harmony, wellness, abundance, success, and even health.

We take showers, clean our physical spaces, do our laundry, but rarely do we take the time to clear out our energetic field. Doing so allows us to recharge, renew, and rebuild.

Barbara has done space clearings/blessings for individuals, real estate companies and businesses as varied as Broadway Productions, television studios, department stores, fashion showrooms and many others. Barbara taps into her extraordinary journey as a Global Ritual Expert and Spiritual Alignment Coach to revitalize your space, empower your intentions and align with your highest goals and vision.
